

REACH product info

As required by the duties defined in Article 33 of the REACH Regulation No 1907/2006, please find below information on the use of substances of very high concern (SVHC below) in the products of REFLECTS GmbH. The information, collected to the best of our knowledge and belief, corresponds to the state on the date of publication. The information is based on the current state of knowledge and experiences and on information that we receive from our suppliers. We only carry out special investigations of our products in exceptional cases. Trace impurities were not taken into consideration. A legally binding promise for specific properties or the suitability for a concrete end-use cannot be derived from our statements. In light of the further development of our company, we are constantly working on products that reduce the burden on the environment or health when used as intended.
